Capilano Students' Union Appeals CRO Decision Blocking Video Release

Hi Ron,

The "yes" campaign is requesting that the CSU be allowed to publish the video as originally provided. would like to request a formal explanation for the rejection of the campaign video.

It is the opinion of the CSU that:

- As the video was made prior to the close of nominations, we were not aware of which students would be running in the election and in filming the video we opened it to the broader student body.
- One of your prior opinions stated that students running in the election were free to promote the "yes" campaign in any way so long as slating was avoided.
- Individuals are not named in the video, nor is there any indication that they are running in the election.

We understand that in the interest of a timely response, that a fulsome explanation was not provided but would now like to request that you review your decision and provide a comprehensive explanation or renewed opinion.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Sacha Fabry', written over a light blue horizontal line.

Sacha Fabry
