ELECTION EMERGENCY DECLARATION

Given the State of Emergency Declared in the Province of British Columbia due to the ongoing pandemic, I have implemented an emergency declaration that slightly alters the CSU election procedures for the health and safety of all involved in the March 2021 elections. These changes should have very minimal impact upon the membership. These measures are to be revoked immediately after the election process is finalized when the board received my final election report.

The sections that will be altered are:

- Provision of nomination packages – No physical nomination packages will be made available. Only electronic packages will be available for prospective candidates.
- The delivery of nomination packages – No physical drop off locations will be provided for nominations to be delivered. All nomination packages must be delivered electronically via the various methods offered.
- Voting stations- No voting stations will be provided for on campus and all voting shall be conducted online without the elections administrator setting up any facilities for voting on campus.

Ron Laufer

A handwritten signature in black ink, appearing to read "Ron Laufer". The signature is written in a cursive, flowing style.
